

### BEST QUALITY MADE IN GERMANY

Our high-quality, robust transport and storage containers are developed and manufactured exclusively in Germany. Our wide range of products is manufactured on computer-controlled machines in our modern plants in Amerang and Hohenpeißenberg, where innovations are promptly put into practice. This way we ensure best quality, economical production and flexibility.

We use only new material of 1A quality for the production of our containers. As no recycled materials are used in the production, we can guarantee a constantly very high product-quality to our customers.

We use different materials for different requirements and applications with regard to e.g. temperature stability, weight-bearing capacity, impact resistance, suitability for cleaning plants etc. Naturally, the transport containers produced by AUER Packaging are optimized for automatic handling.

### TOP QUALITY AT A REASONABLE PRICE – DIRECTLY FROM THE MANUFACTURER!

Transport containers manufactured by AUER Packaging are adapted exactly to the needs of modern transport. National and international standards for modern logistics were taken into consideration in the development stage. The dimensions offered are compatible with customary pallet sizes. Our containers are extremely robust – and at the same time surprisingly light! With thought-out detailed solutions and functional accessories they fulfil the varied demands of a vast number of industries.

You buy AUER transport containers directly from the manufacturer and therefore at extremely good prices – without any additional surcharges! Individual requests such as printing or special models can be coordinated and realised directly.

### QUICK SERVICE

At the annual liquidity rating of the rating agency Hoppenstedt, Auer Packaging was assessed with the top mark of 1.0 as „Top Business Partner“ for the year of 2012 - an decoration which is only given to 4.4 % of 4.2 m. tested companies.

We execute all orders quickly and reliably – our order-placing processes are incomparably short! Serving all our customers directly, without any sales representatives, we are able to offer quicker and more efficient services – and naturally also top prices.

We are happy to advise you on the telephone regarding your transport requirements and offer you solutions – including custom-made products, if required. All products can also be supplied in very small quantities up from 1 item at the per-carton prices.

The per-pallet price is only applicable for complete pallets. Custom-made products and imprints on request.  
The prices quoted are net prices effective ex works exclusive of transport costs and VAT.

The latticed euro containers by AUER Packaging have effective ventilation slots – a great advantage for transporting and storing foodstuffs.

Additionally, liquids can drain from the container easily, and dampness will not accumulate. When stacked, it can be determined quickly whether the container is full or empty.

Suitable for direct food contact and easy to clean.

# RACK- AND FLOW MATERIAL BOXES

## IDEAL FOR SHELVES

A perfect solution to order your warehouse:  
The storage boxes (approximately available in autumn 2012) were especially attuned for the AUER-shelve system, which is also in planning. The big labels (1 pcs per box already included) ensure perfect order.

- Make your work-flow easier
- Very stable design
- huge storing space
- stackable

With this system you will always have a clear view of everything: the transparent tipping boxes (approximately available in autumn 2012) make it easy to see what's inside. To fill or empty the boxes, they just have to be tilted forward but they will still remain safe in their fixing module. With just one hand movement more you can also take the containers out of the fixing module - so you can be completely flexible.

- made of transparent, scratch-proof plastics
- individual stackable or usable in wall mounting system
- labels are included in scope of delivery

# COMPONENT HOLDERS

## INDIVIDUAL MODELED

In order to provide your individual components for a smooth automated production process, we produce high quality customized component crates of plastic – at lower cost for small quantities! This allows precise positioning of components as well as high repeatability in automation. Prices on request.

- Minimum wear
- high mechanical resistance

# DIVIDER CROSS

## FOR EURO CONTAINERS

The perfect solution if you want to divide your eurocontainers only transverse: A small insert on both long sides enables you to connect the transverse dividers easily, stable and save with the container. We produce your transverse divider inserts according to your requirements! For placing the order, just inform us how many dividers your system should have and how high you want it to be, like shown in the order example.

### DIVIDER CROSS

Article No.	Height	basic price	extra charge per divider
QT GEF 43 *Q*H	5 - 30 cm	30,00 €	5,00 €
QT GEF 64 *Q*H	5 - 40 cm	30,00 €	6,00 €
QT GEF 86 *Q*H	5 - 40 cm	30,00 €	12,00 €

\*) has to be completed with the quantity and height required.  
Order example: **QT GEF 435Q20H** is one **transverse divider system**, suitable for our **40 x 30 container**, with **5 dividers** and a **height of 20 cm**. Price: 55 €

# DIVIDER LENGTH

## FOR EURO CONTAINERS

The perfect solution if you want the divide your container only lengthwise: A small insert on both, short sides enables you to connect the longitudinal dividers easily, stable and save with the container. We produce your longitudinal inserts according to your requirements- To order the divides, just inform us how many dividers your system should have and how high you want it to be, like shown in the order example.

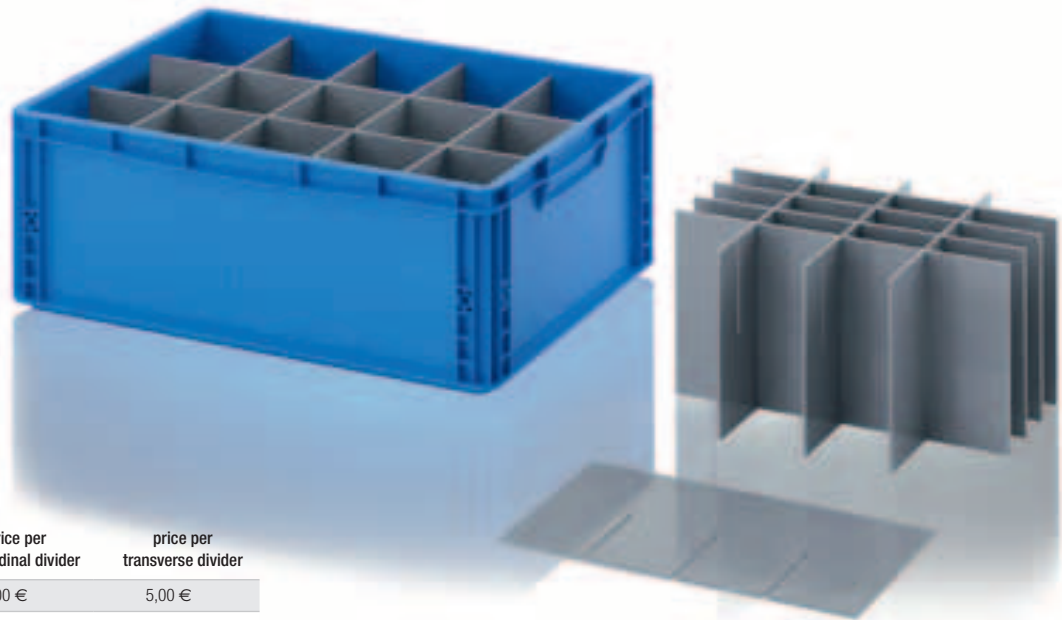

### DIVIDER LENGTH

Article No.	Height	basic price	extra charge per divider
LT GEF 43 *L*H	5 - 30 cm	30,00 €	6,00 €

Foldable  
Boxes

## SPACE SAVERS

The collapsible and foldable containers by AUER Packaging can be used in a variety of applications. They are space-saving, extremely cost effective and compatible with other re-usable packaging systems.

Our containers are light, and at the same time very stable, stackable and can be quickly and simple opened up and folded down.

- Secure, quick and simple to fold
- High reduction in volume (up to 82%)
- Ideal box for transports and consignment
- Simple and robust folding mechanism
- Easy opening and closing
- Sealable (only with lid)

Reusable  
containers

# REUSABLE CONTAINERS

## ALL-ROUND STORAGE AID

Flexibility is the top priority in storage and transport. When empty, AUER reusable containers can be stacked into one another to save space. In normal position, the optional frames allow the containers to be stacked into one another, and when in raised position they make it

possible to vertically stack loaded containers even without lids. Thanks to their robust design, they allow for high stack height. The recess in the lids of the reusable containers offer a high stability.

- Saves volume during empty transport
- Up to 75% less empty volume

The huge Auer reusable containers, with the size 80 x 60, can also be stacked space saving into each other. Optionally available stacking frames enable you to stack the containers into each other when the stacking frames are in home position. When flipped out, the boxes can be stacked onto each other - also without lids. Due to their stable design, large stacking heights are possible. Further available equip-

ments are hinged lids and skids. The hinged lid, with its recess, offers high stacking stability. The skids offer a rational handling with lift trucks and fork lifters.

- saves volume when transported empty
- up to 75% less empty volume

KLT

# R-KLT BOXES ACCORDING THE VDA-4500 STANDARD

## FIT SEAMLESSLY INTO EACH OTHER

Our R-KLT mini-load containers( approximately available in autumn 2012) are fully conforming to the standards of the Association of Automotive Industry (VDA). They fit perfectly for highly automated production processes and are equipped with a sturdy base ribbing. Stable impact surfaces on the front and the sides allow the use in mini-load systems; lifting slots for vertical retrieval and special holes for the fixing of lid sealings. Perfectly usable for manual handling due to their ergonomic grips at the front walls and their practical support grips on the side walls.

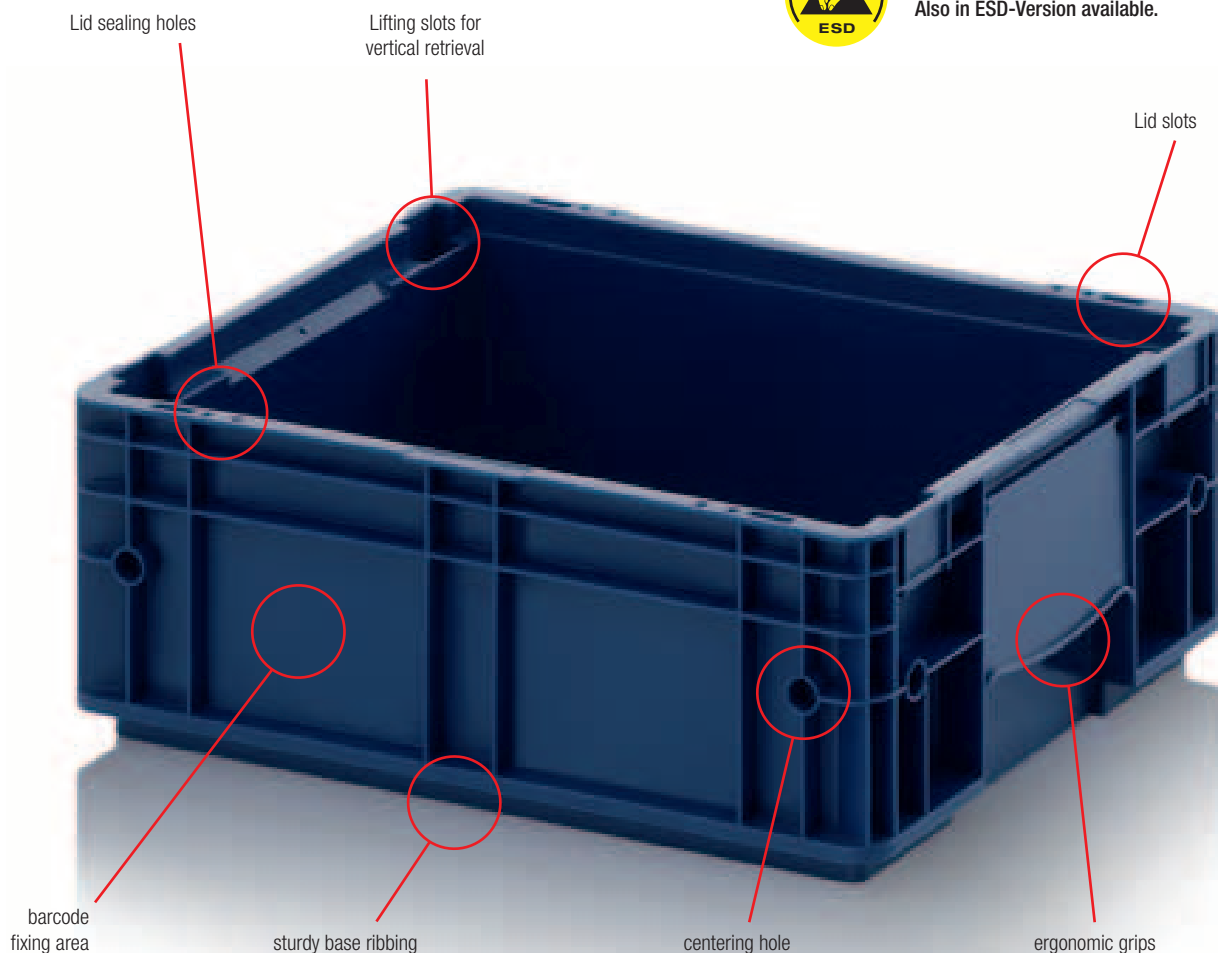

The mini-load containers are also available in foldable version. (Version- F-KLT)

- Conform to VDA-standards
- Material 100% Polypropylene
- Resistant to most oils, acids and alkalis
- Quiet running on conveyors
- Withstands temperature from -20 to +100 degrees Celsius
- Fully recyclable

- Easy cleaning due to smooth internal walls
- Integrated lid slots
- Barcode fixing area

Also in ESD-Version available.

The lids for the R-KLT Series according to the VDA standards are also made of 100 % PP and seal the containers dust-proof. The containers can also be stacked with lids.

### R-KLT BOXES ACCORDING THE VDA-4500 STANDARD

60 x 40 x 28	53,4 x 35,7 x 25,7	F-KLT 6410	sturdy base ribbing	RAL 5005	46,0

## MATERIAL FLOW CONFORMING TO THE VDA STANDARD

Our RL-KLT containers with a smooth sub-floor and waterdrainage holes in the base (approximately available in autumn 2012) can ideally be used for areas where liquids (e.g. of cleaning processes, or individual production stages) shall be drained off. Stable impact surfaces on the front and the sides allow the use in mini-load system; lifting slots the vertical retrieval and special holes the fixing of lid sealings. Perfectly usable for manual handling due to their ergonomic grips at the front walls and their practical support grips on the side walls.

- According to VDA 4500 (only RL-KLT)
- Waterdrainage holes in the base can be supplied according to VDS classification directive BG 4.3.
- Material 100 % Polypropylene
- Resistant to most oil, acids and alkalis
- Quite running on conveyors, when used correctly
- Retains its stability at temperatures from -20° to +100° C
- Fully recyclable
- Easy cleaning due to smooth internal walls
- Integrated lid slots
- Barcode fixing area

Also in ESD-Version available.

# CLOSING SYSTEM

## FOR BIG BOXES

Secure valuable and sensitive goods against unauthorized manipulation! With our closing system are your Big boxes on the safe side.

The closing sets come pre-mounted.

Please note:

- hinges are only fixed on the long sides of the boxes
- if a container is equipped with hinges, the pad locks should only be fixed opposite the hinges.

### Toggle-type fastener SV

to secure hold the lid and close the container  
(1 unit is required per box)

# COLLAPSIBLE BULK CONTAINERS

## PROVE REAL GREATNESS

Our GLT production line of collapsible bulk containers are the food-safe hygienic and thermo containers in AUER Packaging's product range. These containers feature smooth outside and inside walls and can therefore be cleaned easily and thoroughly. Twin wall construction of the walls ensures maximum protection for product's. The lids of the GLTs can be locked and sealed making unauthorized opening impossible.

- ideal for transporting and storing food
- easily cleaned with no dirt traps
- isolated against heat and cold by double-walls
- space-saving when empty
- also stackable with lids
- security sealable

Order now & save money!

# CLOSING SYSTEM

## FOR COLLAPSIBLE BIG BOXES

Secure valuable or sensitive goods reliably from unauthorized persons! With our locking-systems your foldable bigboxes are on the safe side, already when being delivered, as the locking-system will directly being assembled in our factory.

Please note:

- all solutions, except of the pad lock with eyebolt SC, can only be mounted on side-walls without flaps.

- Hinges are only mouted on the long sides of the boxes

- if a container is equipped with hinges, the padlocks should only be fixed opposite the hinges.

**Toggle-type fastener SV**  
to secure hold the lid and close the container  
(1 unit is required per box)  
Images with item 41132 2

### Locking hinge SA

- middle adjustment of 95°
- very stable  
(per container are required 2 units)

# BAG IN BOX SYSTEM / IBC

## FOR LIQUIDS

By using a single use liner bag, the AUER IBC-System offers a very hygienic and safe solution, including the option of aseptic liner.

Advantages compared to traditional non returnable or rigid systems:

- Significant reduction in transport costs
- Reusable container (only the liner bag is disposable)
- More hygienic due to smooth surfaces and rounded off edges
- Double skin design of IBC walls gives excellent product protection against fork impact. RFID technology available for track and trace of your asset
- User friendly filling and discharge methods. Safe and easy to transport
- Optimal space utilization – stackable and collapsible
- Single use liner eliminates expensive cleaning costs and associated operational time
- Extended shelf life for product filled aseptically, even if part discharged
- No pressure balance necessary
- One man operation
- High stack load rating
- inclusive sealable lid

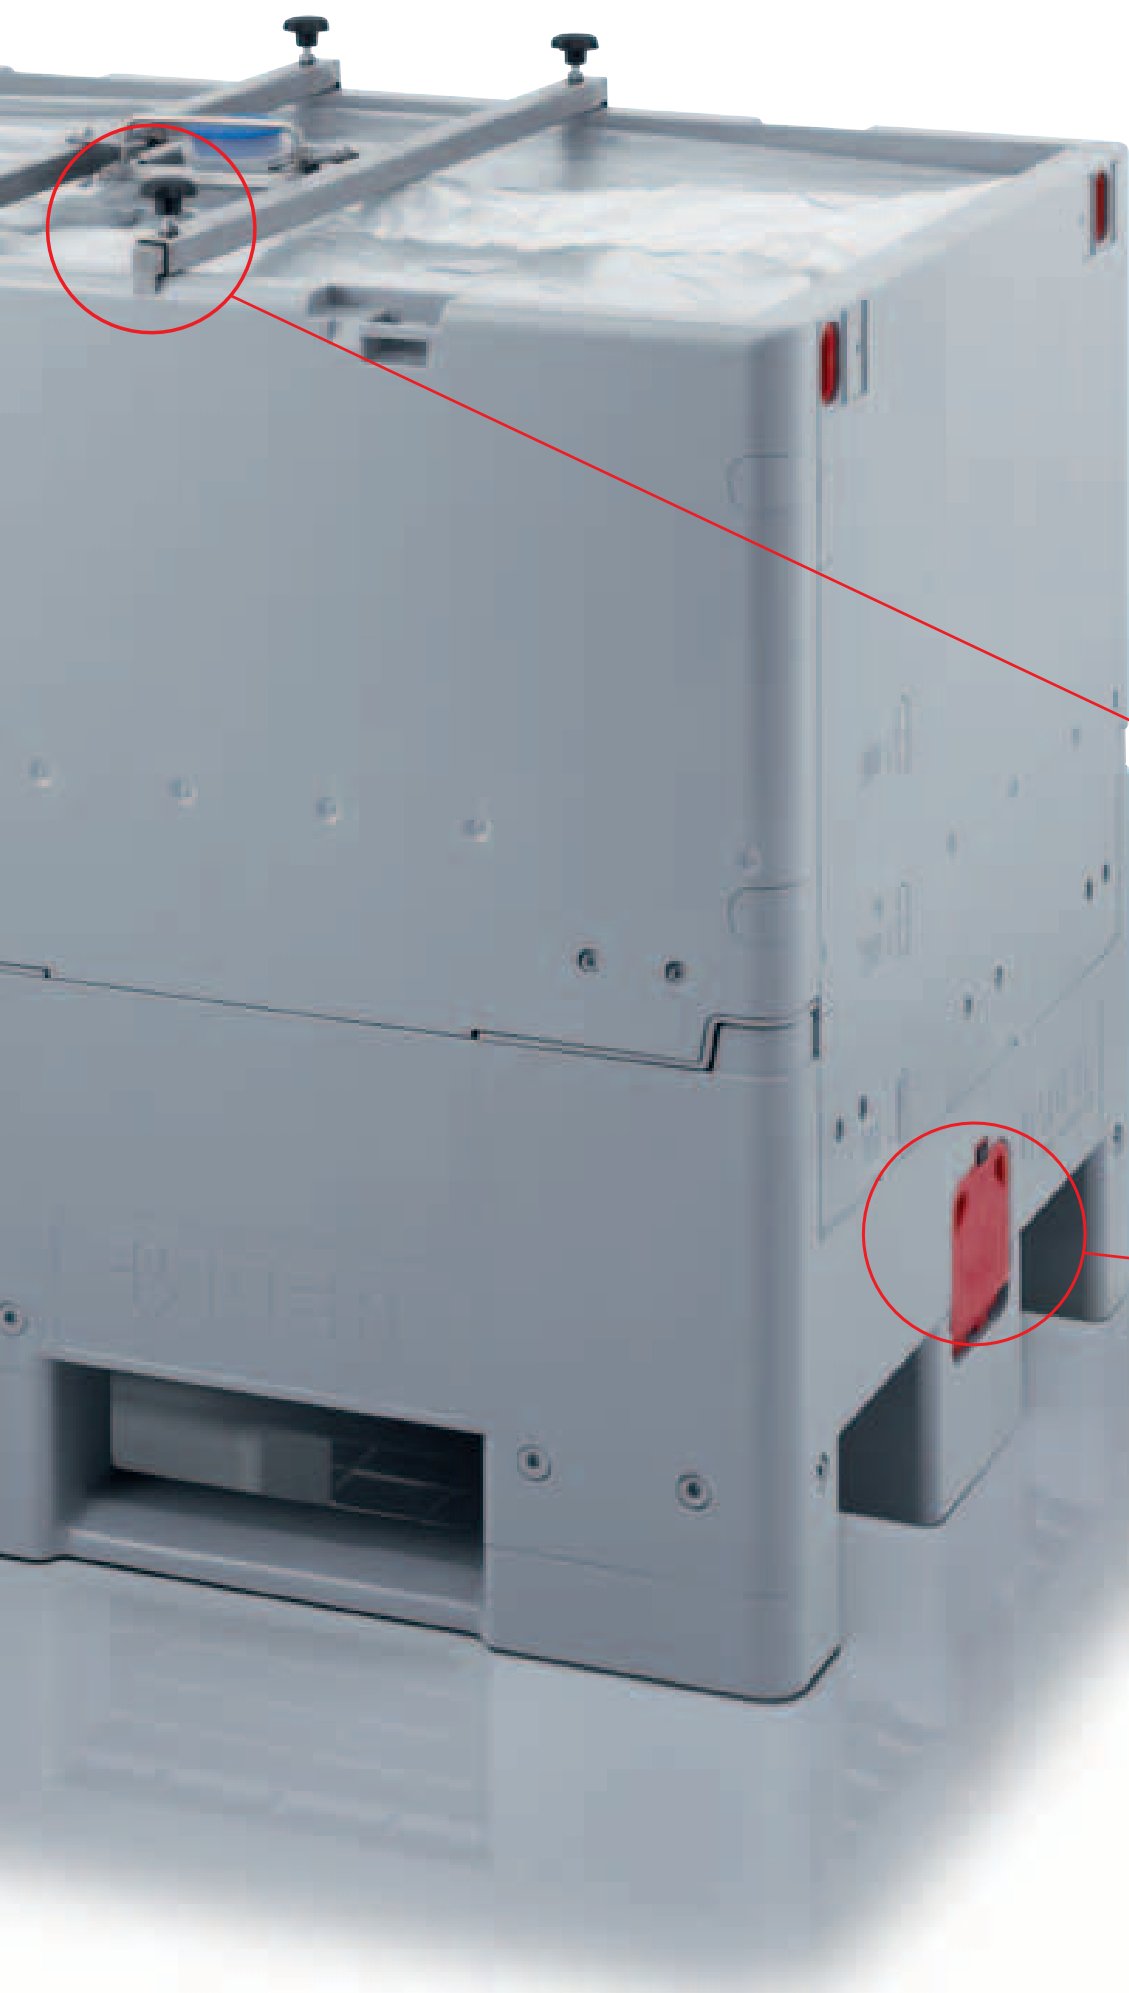

- Reinforced side walls for strength and stability

- Three runners for use with all materials handling equipment

### IBC CONTAINER 250 L, 500 L, 1000 L

Dimensions L x W x H (cm)	Article No.	Colour	Model	Price for single unit	Units per storing position	Price/Unit per storing position
80 x 60 x 83	IBC 250	silver grey		178,33 €	12	148,61 €
120 x 80 x 91	IBC 500	silver grey		321,37 €	5	267,81 €
120 x 100 x 125	IBC 1000	silver grey		445,42 €	5	371,19 €
120 x 100 x 125	IBC 1000 EK	silver grey	cut-out handles with flaps	469,42 €	5	391,19 €
Seal	PB	black		0,20 €		

■ Filling bridge out of high quality stainless steel for an easy and clean filling of the liner bag

■ Tamper evident cover flap indicates any unauthorised opening during transport

## HYGIENIC, SAFE AND ECONOMICAL

The replaceable liner bag provides maximum safety and hygiene.

- With our disposable liner bag no expensive chemical cleaning products needed
- No additional personnel costs required for cleaning the liner bag
- Materials approved for food contact
- Form fit welded liner bag
- Material 70 my Coex LDPE / Metalocene / LDPE
- 2" inlet with closure

On request, the liner bag is available in aseptic form

- Gamma-irradiated
- Separately wrapped in a sterile bag
- Outlet DN 50 with hemisphere ball valve or
- outlet 2" S60 (V2) respectively 6" (V6) external thread with butterfly valve

Outlet of 2" internal thread with closure (...A)

## FEATURES AND BENEFITS

- Stackable – saving valuable racking space
- Reusable – saving costs vs. single use alternatives
- Foldable – saving space in storage and on return transport
- Hygienic – easy to clean smooth surfaces
- Economical – transport amortisation favourable vs. rigid alternatives
- Easy to use – operational savings and higher yield potential

All IBC containers are delivered with lid and outlet. Liner bags have to be ordered separately.

# HYGENIC PALLETS WITH CLOSED SURFACE

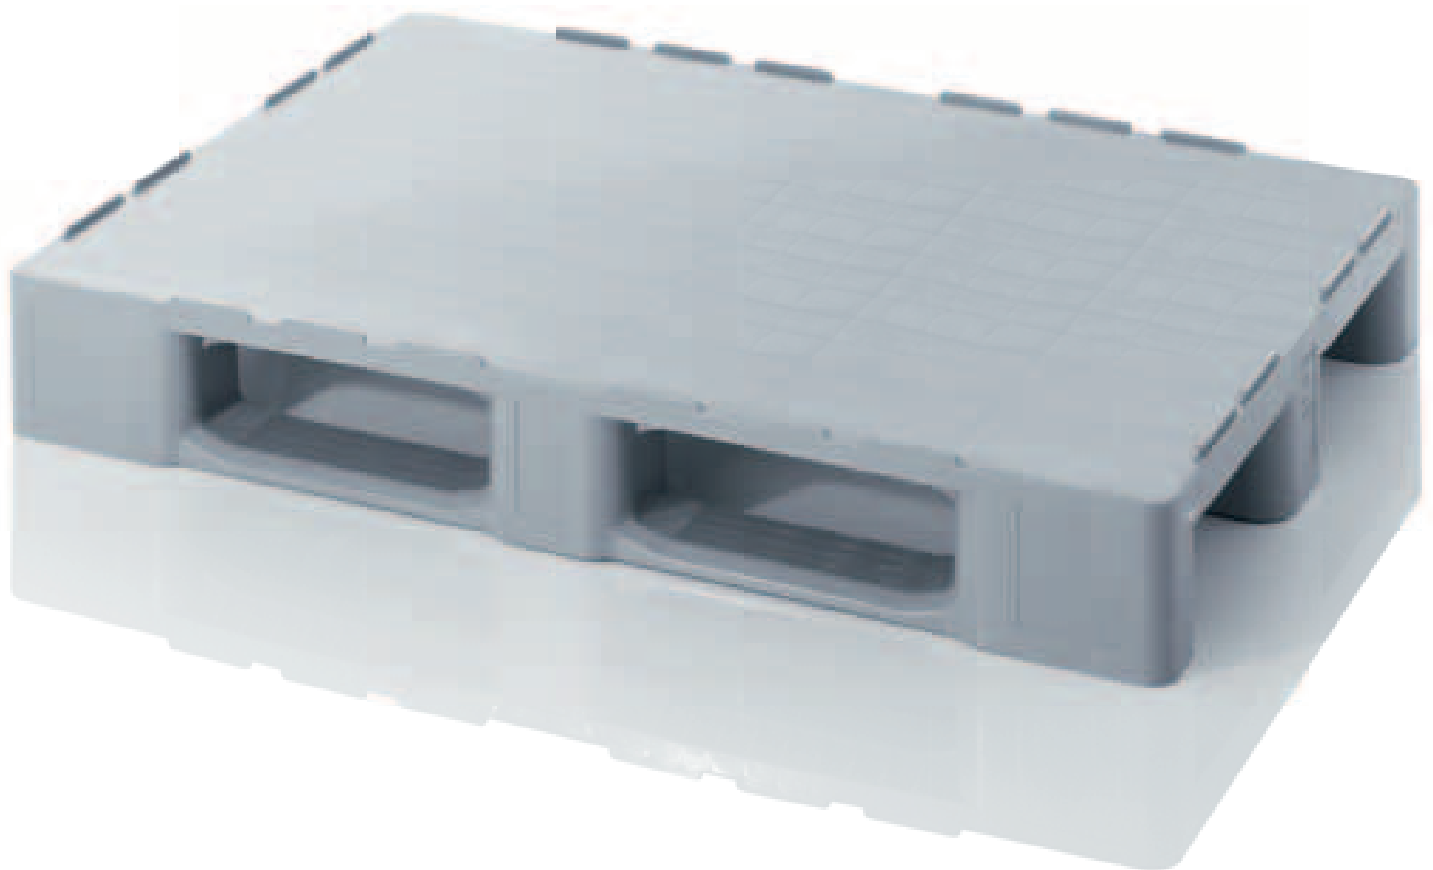

## TRY IT SMOOTH NOW!

In autumn 2012, a completely new generation of hygienic pallets will be available. The surface of these pallets will be closed, whereby it will get even more easy to clean them. The new pallet generation will replace our MPHD-pallets. As a cheap alternative we will also offer this closed version made of reclaimed material, while our hygienic pallets will be made of 100% PE-HD new material.

■ Loading capacity with steel tube reinforcements:  
dynamic load: 2.5 t  
static load: 4.5 t  
high rack: 1.5 t

■ Loading capacity without steel tube reinforcements:  
dynamic load: 1.5 t  
static load: 3.5 t  
high rack: 300 kg

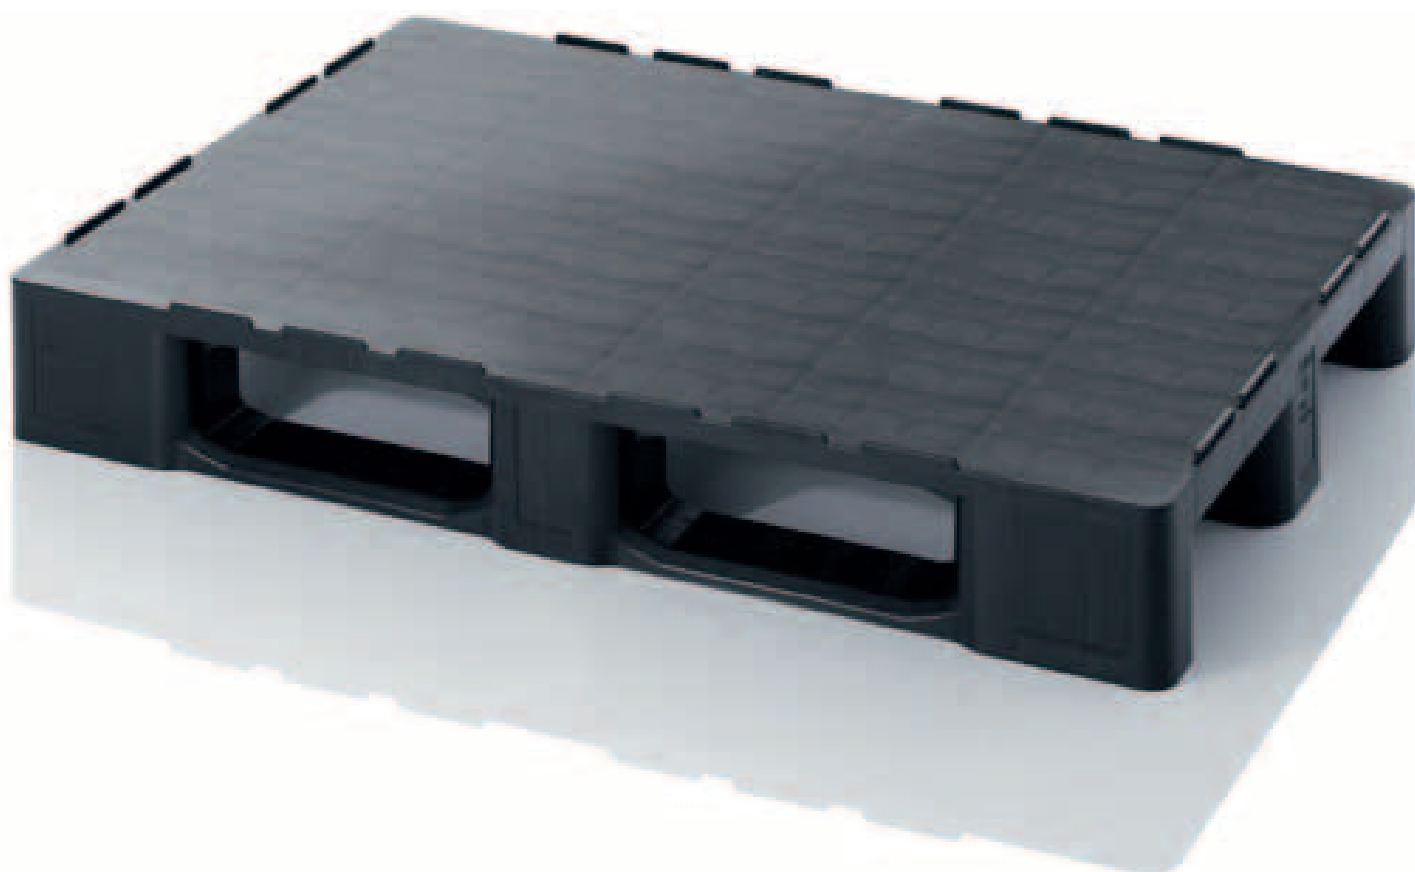

Available with or without outside adjustments

## HYGENIC PALLETS WITH CLOSED SURFACE

## MEAT CRATE

### HYGIENIC STORAGE FOR MEAT

Meat  
industry

A hygienic transport and storage of meat and sausage products: The AUER meat boxes in the E2 format is according to DIN 55423-conform and meet the strict requirements of the EHI.

- Optimize the use of automated logistics (suitable for roller conveyors and roller belt)
- Water is drained from the edge to outside

### MEAT CRATE

# ESD EURO CONTAINERS WITH LID

## COMPLETELY PROTECTED

The complete range of ESD Euro containers is also available with lids - the lids are made of the same high quality antistatic material

like the containers. Therefore the valuable electronic articles are completely protected.

Special volume resistivity/surface resistivity:  
 $10^6 < 10^{10}$  Ohm cm

**AVAILABLE UP FROM 1 PIECE!**  
 No minimum purchase order. Excl. VAT; The per-pallet price is only applicable for complete pallets.

# ESD-TRANSVERSE DIVIDERS

## FOR ESD-EUROCONTAINERS

The perfect solution if you want to divide your eurocontainers only transverse: A small insert on both long sides enables you to connect the transverse dividers easily, stable and save with the container. We produce your transverse divider inserts according to your requirements! For placing the order, just inform us how many dividers your system should have and how high you want it to be, like shown in the order example.

### ESD DIVIDER CROSS

Article No.	Height	Basic price	extra charge per divider
ESD QT GEF 43 *Q*H	5 - 30 cm	30,00 €	7,50 €
ESD QT GEF 64 *Q*H	5 - 40 cm	30,00 €	9,00 €
ESD QT GEF 86 *Q*H	5 - 40 cm	30,00 €	18,00 €

\*) has to be completed with the quantity and the height required.  
Order Example: **ESD QT GEF 43 4Q20H** is one **ESD-transverse divider insert**, suitable for **40 x 30 containers**, with **5 dividers** and a **height of 20 cm**. Price: 67,50 €

# ESD-LONGITUDINAL DIVIDERS

## FOR ESD-EUROCONTAINERS

The perfect solution if you want to divide your ESD-eurocontainers only longitudinal: A small insert on both sides enables you to connect the transverse dividers save and easily with the containers. We manufacture your transverse dividers according to your requirements! For placing the order just inform us, like shown in the order-example, how many dividers your systems should have and how high you want it to be.

### ESD DIVIDER LENGTH

Article No.	Height	Basic price	extra charge per divider
ESD LT GEF 43 *L*H	5 - 30 cm	30,00 €	9,00 €
ESD LT GEF 64 *L*H	5 - 40 cm	30,00 €	13,50 €
ESD LT GEF 86 *L*H	5 - 40 cm	30,00 €	27,00 €

\*) has to be completed with the quantity and the height required.  
Order Example: **ESD LT GEF 43 5L20H** is one **ESD-longitudinal divider insert**, suitable for our **40 x 30 container**, with **5 dividers** and a **height of 20 cm**. Price: 75 €

No matter in how many compartments you want your ESD-eurocontainer to be divided or how high you want the ESD-insert to be, we can produce tailor-made solutions on request! The functional plug-in system will be pre-milled according to your requirements. When ordering, please inform us not only about the quantity of compartments and the height, but also about the correct quantity of ESD-transverse and longitudinal dividers!

### SPECIAL INSERTS

Article No.	Height	Price divider length	Price divider cross
ESD SGF 43 *L*Q*H	5 - 30 cm	9,00 €	7,50 €
ESD SGF 64 *L*Q*H	5 - 40 cm	13,50 €	9,00 €
ESD SGF 86 *L*Q*H	5 - 40 cm	27,00 €	18,00 €

\*) has to be completed with the quantity and height required.  
 Order example: **ESD SGF 43 5L2Q20H** is one **special insert**, suitable for our **40 x 30 containers**, with **5 longitudinal dividers**, **2 transverse dividers** and a **height of 20 cm**. Price: 60 €

# ESD-INTERMEDIATE PLATES/ CUTS

## SEPARATE IN LAYERS

If you want to establish order inside your ESD-containers, just insert one divider level more. The intermediate plate are tailor-made according to the dimensions of the eurocontainers. On request we can also cut intermediate plates to your requirements.

# RAINWATER SOAKAWAY RIGOLETTO

## OPEN ON ALL SIDES

The AUER soakaway Rigoletto meets all stringent guidelines for an infiltration system free of gravel, which is required by the construction of sealed surfaces.

The main part of this system is a high-performance Rigolen retention unit, made of Polypropylene and a void ratio of 95%. It is equipped with a lateral pipe connec-

tions for KG DN 100, 150 and 200, which can be flown through three-dimensional almost without any resistance and which can be combined in every way you like.

A continuous inspection tunnel allows using an automotive camera car for a pipe of DN 200. The inspection tunnel is equipped with wide-meshed side grids, which

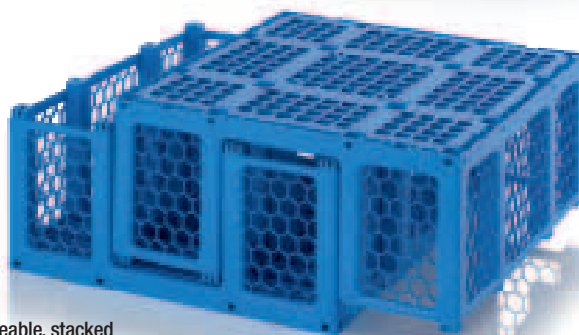

serve for the control of effectively infiltration of outdoor areas as well as for the complete volume of the Rigole with all static relevant supporting elements. The Rigole system is prepared for the professional rainwater infiltration/retention and the retest. It is possible to put it under traffic areas or in huge depths.

**HIGH RESISTANCE**  
suitable for a traffic and ground load  
untill 60 SLW (heavy trucks of 60 tons)

**SLW 60**  
Truck 60t

At the strength testing, made by the MFPA, our Rigoletto inspection block showed ist high vertical and horizontal loading capacity.

Replaceable, stacked  
for the transport

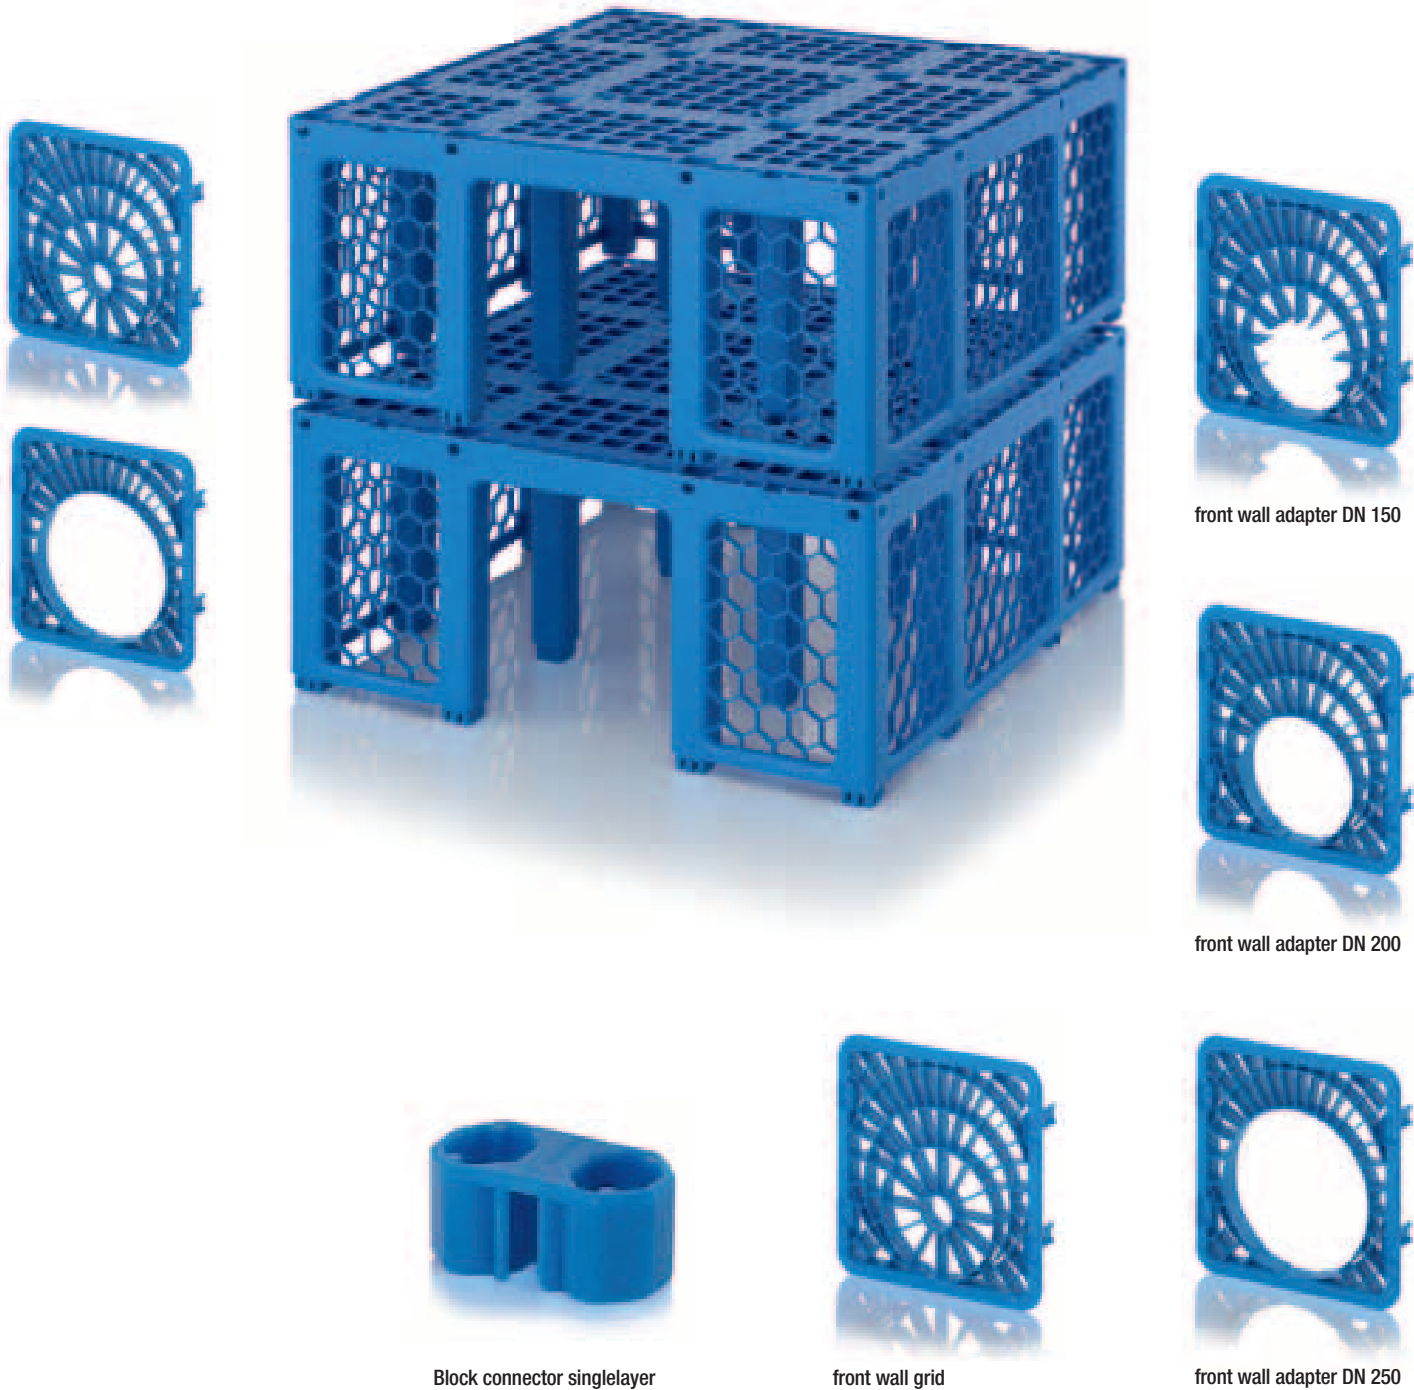

## RAINWATER SOAKAWAY RIGOLETTO

Article No.	Article description	Dimensions L x W x H (cm)	Gross volume	Storage volume	Weight	Units per pallet	Price/Unit on pallet
RG88-G	Rigoletto inspection canal closed	80 x 80 x 35	244l	211l	9,57kg	8	35,05 €

RG88-GP	Rigoletto base plate	80 x 80 x 5	-	-	5kg	52	14,99 €

To complete the inspection tunnel there are suitable front wall grids available. Front wall adapters are provided for the direct pipe connection, which just have to be clicked onto the front of the Rigoletto.

Block connectors are used to secure the position of the Inspection Block Rigoletto during the installation. The block connectors are in the middle of the wall for mounting.
